

I Count

One thing that we know is that today is different from yesterday and tomorrow will be different from today. Being agile and adaptable to change needs to be the new normal.

The council has a huge role to play in helping the county through this coronavirus outbreak, and the contribution staff make has never been so important. We need people to help us continue looking after the most vulnerable in our communities and keep services running.

This is where you come in. Your skills will be needed to help everyone; your colleagues, our residents, our families and our communities.

Please take 5 minutes to complete [this form](#) and let us know what, if anything, you can do to help. We will not be asking you to do anything you are not comfortable with but will ask you to be courageous in your efforts.

Not sure if you can help? If you can do any of the following then your skills are needed:

- Call answering
- Email responses
- Admin tasks
- Prepping meals

- Housework
- Personal Care (washing, bathing and dressing)
- Talking to people
- Driving

In order to cover these critical roles, your managers will be freeing you from your current commitments, where it is possible to do so, in order to come together for the greater good. These duties are instead of and not as well as your other work, and you will get the training and support you need to carry them out.
